MAYSVILLE, KY., MONDAY, MAY 12, 1902.

NUMBER 146.

PEOPLE IN A PANIC.

Terror Prevailing Throughout the West Indies.

VOLCANOES STILL ACTIVE.

Hundreds Reported Killed by the Eruption of Soufriere.

RELIEF AT HAND FOR MARTINIQUE.

Further Details of the Terrible Upheaval at St. Pierre, Where Thousand of Corpses Lie Beneath the Tons of Lava—Wonderful Sights on St. Vincent.

Fort De France, Island of Martinique, May 12.—Advices received here from the vicinity of St. Pierre, 10 miles from here, contain further details of the terrible volcanic upheaval which resulted in the utter destruction of that town and the death of nearly all its inhabitants. The crater of Mont Pelee has been wearing its "smoke cap" since May 8, but there was nothing until last Monday to indicate that there was the slightest danger. On that day a stream of boiling lava burst through the top of the crater and plunged into the valley of the river Blanche, overwhelming the Guerin sugar works and killing 23 work people and the son of the proprietor.

A commission was appointed by the governor to investigate the outbreak, and it returned a reassuring report on Wednesday evening. But about 8 a.m. Thursday a shower of fire rushed down on St. Pierre and the coast from Le Carbet, which had a population of 6,000, to Le Precheur, which had a population of 4,000, burning up everything in its path. Throughout Thursday the heat was so intense in the vicinity of St. Pierre and the stream of flowing lava was so unremitting that it was impossible to approach the town during the early part of the day. As evening approached the French cruiser Suchet, after a fierce battle with the heat, suffocation and sulphur fumes, succeeded in making a dash toward the shore, nearing the land close enough to enable her to take off 30 survivors of the disaster, all of whom were terribly burned and mutilated. St. Pierre at that time was an absolute smoking waste, concealing 80,000 corpses, whose rapid decomposition necessitated, in some cases, instantly completing their cremation, which was only partially accomplished by lava.

The inhabitants of Fort De France were panic-stricken the morning of the disaster, when the sky suddenly blackened until it was as dark as midnight. The sea shrank back 30 yards and hot ashes began to fall, while gravel the size of walnuts poured down on the town. This lasted about 15 minutes. The 450 survivors who were brought here from the vicinity of St. Pierre on the French cable repair ship Pouyer Guerrier came from the town of Le Precheur, where, surrounded on all sides by flowing lava, they were nearly roasted to death and expected to be momentarily engulfed.

The work of relief is progressing here on the most extensive scale possible, but, in anticipation of disturbances, the treasury building and the warehouses are guarded by troops. The latest reports received here showed that lava continues to pour down the slopes of the mountains, slowly engulfing the whole north side of the island, while fresh crevasses are continually opening.

Crops Were Harvested. London, May 12.—Communication is still obtainable with the island of Guadeloupe, French West Indies, but the news is congested, owing to the confusion prevailing in the cable system, and the numerous official messages filed. The receipt of the first direct cable news from Martinique depends on how long the French company will take in repairing the cable to Fort de France, capital of the island on which they are now working. The British admiralty is communicating with the commander-in-chief of the British naval station and was vessel will be directed to go to Martinique. It is apparent from the cable dispatches received that the eruption of the volcano on Mt. Pelee will not do much damage to the summer crop, which is chiefly confined to the southern part of the island and the gathering of which is now two thirds over. However the wiping out of the monied population of the island centered at St. Pierre is bound to produce the most serious commercial effect. Not one of the business houses in London has

heard a word of its agents in Martinique.

ERUPTION OF SOUFRIERE VOLCANO.

Kingston, Island of St. Vincent, B.W.I., May 12.—After numerous earthquakes during the preceding fortnight, accompanied by subterranean noises in the direction of the Soufriere volcano, on the northwest part of the island, a loud explosion from the crater occurred Monday last and the water in the crater lake ascended in a stupendous cloud of steam and exploded heavily. The noises grew louder continually until Wednesday morning, when the old crater, three miles in circumference, and the new crater formed by the last eruption, belched smoke and stones, forcing the residents of Wallibou and Richmond valley, beneath the volcano, to flee to Chateau Belair for refuge. The thunderous noises, which were continually increasing, were heard in neighboring islands 200 miles away. At midday the crater ejected enormous columns of steamy vapor, rising majestically eight miles high and expanding into wonderful shapes, resembling enormous cauliflower, gigantic wheels and beautiful flower forms, all streaked up and down and crosswise with vivid flashes of lightning, awing the beholder and impressing the mind with fear. The mountain labored to rid itself of mass of molten lava, which later flowed over, in six streams, down the side of the volcano, and the greater noises following united in one continuous roar all evening, through the night to Thursday morning, accompanied with black rain, falling dust and fatigued scoria, attended with midnight darkness all Wednesday, creating feelings of fear and anxious suspense. On the morning of Friday there was a fresh eruption and ejections of fiery matter, more dust covering the island, in some places two feet deep.

HILLS COVERED WITH REFUGEES. Paris, May 12.—The Temps, referring to the destruction of St. Pierre, says: "We believe, from the information received here from the island of Martinique (meaning doubtless the official dispatches) that the disaster surpasses all that imagination can conceive. The whole northeastern portion of the island is laid waste. Three large communities, exclusive of St. Pierre, have been destroyed. All the hills surrounding Le Carbet and Le Precheur, near St. Pierre, are covered with refugees to the number of about 5,000, who are being taken away gradually. In the meanwhile provisions are being conveyed to them. Of the 30 persons who were originally rescued by the French cruiser Suchet, the majority were fearfully burned, and nine died while on their way to the hospital. The corpses which are heaped in the ruins of St. Pierre are not only completely naked, but are frightfully mutilated."

LOSS HEAVY ON ST. VINCENT.

St. Thomas, D. W. I., May 12.—Advices received here from the island of St. Domingo say, that boats arriving there report that many persons were drowned while crossing to Dominica from the island of Martinique, where some of the out parishes have been inundated. The eruption of Mt. Pelee (Martinique) continues. The lava is progressing northward. The whole northern region is now a rocky waste, denuded of vegetation. Reports from the islands of St. Vincent say that up to the afternoon of Friday last over 500 deaths had occurred there owing to the volcanic outbreak in that island. It is reported here that Fort De France (Martinique) is threatened. Great tension prevails everywhere throughout the West Indies.

HAD RELATIVES AT ST. PIERRE.

Stockton, Cal., May 12.—Mme. Louise Louit, a teacher of French in this city, is prostrate over the news of the terrible disaster at St. Pierre, Martinique, as her sister and family reside in that city. On learning of the volcano eruption she swooned and has been in a serious condition for hours, though at times she would discuss the terrible loss of life. Her sister, Mme. Gentile, her husband, two sons, George and Raoul, and two daughters, Alice and Anais, are believed to have been killed, as she said they lived in a portion of the city where they would be greatly exposed to the molten lava which flowed down the mountain side.

RELIEF SENT.

Paris, May 12.—A telegram from the governor of the island of Guadeloupe contains the latest news of the Martinique cataclysm received at the colonial office. The French cruiser had 30 survivors on board. The governor of Guadeloupe says: "Everything tends to the belief that the governor of the colony, M. L. Mouttet, and Colonel Garbault and their wives perished with the population of St. Pierre. I have ordered the prompt dispatch of provisions from Pointe à Pétie and Passotterre. The Suchet sails for Martinique at once. All of the people and the supplies of Guadeloupe are at your disposal for relief."

SENTIMENT AT SHAMOKIN.

Shamokin, Pa., May 12.—When bulletins were posted here announcing the action of the Scranton convention in ordering a cessation of work until the miners could decide for them-

STRIKE ORDER OBEYED.

NO COAL MINED THROUGHOUT THE ANTHRACITE REGION OF PENNSYLVANIA.

OPERATORS MAKING NO ATTEMPT.

LOCAL UNIONS ELECTING DELEGATES TO THE HAZLETON CONVENTION—RAILROADS ALREADY FEELING THE EFFECT OF THE SUSPENSION.

Scranton, Pa., May 12.—There was no coal mined in the Scranton end of the anthracite region, the strike order being religiously obeyed. The companies agreed at a meeting of the general managers and superintendents Saturday that no attempt would be made to operate. Some of the companies, however, propose to keep a few at least of their washeries running, to insure a supply of culm for locomotives, hoisting engines and the like. The strike has already made itself seriously felt in other lines of work. The railroads have laid off four-fifths of their coal train crews, in all about 800 men, and the Erie shops at Dunmore, where mine cars and machinery are repaired, will shut down indefinitely, throwing 300 men out of employment.

MEETINGS HELD TO ELECT AND INSTRUCT THE DELEGATES TO THE HAZLETON CONVENTION. Meetings of all the locals are being held to elect and instruct the delegates to the Hazleton convention. The sentiment among the more thoughtful and intelligent miners is opposed to a continuance of the strike. These men will use as one of their chief arguments the significant fact that the companies' mine officials are not soliciting their men to vote against the strike, while at the same relative time in the last strike these same officers were working day and night to discourage the men from striking. The story that the Morganized fleets will be used to import coal and prevent a famine does not cause President Mitchell any evident concern. He dismisses it with the remark that the United States is now exporting coal to all parts of the world. It is estimated that 140,000 miners are idle today.

COMMENT ON THE STRIKE.

NEW YORK, MAY 12.—In reviewing the situation in the anthracite fields in connection with the strike of miners, just declared, the Engineering and Mining Journal says: "Without going into the political aspects of the controversy between the miners and operators, although it is safe to say that the political features are those most considered by certain of the persons interested, we can at least point out certain basal facts. In the first place, the anthracite trade by reason of the general prosperity of the country and the firm control of production exercised by the so-called community of interest is in an exceptionally favorable condition. The history of the trade up to within a few years has been one of overproduction and reckless competition varied by occasional visionary attempts to put the trade on a profitable basis. Whatever may be said against the present control of production and prices, the fact remains that it has brought order out of chaos and profits out of impending bankruptcy. The various mining and transportation companies are in closer alliance than ever, the individual producers are constantly becoming fewer as their properties are purchased by the large concerns, and the control of the trade is in strong hands. It is safe to say the average condition of the anthracite mine workers is better than it has been in 30 years. They have never suffered much from actual low wages, although their yearly earnings often have been miserably insufficient.

FEELING AT HAZELTON.

Hazleton, Pa., May 12.—The calling of another United Mine Workers' convention and placing in the hands of the men the responsibility of declaring a strike or continuing at work under present conditions is taken here as meaning that the leaders are in doubt as to the advisability of starting a struggle at this time. Many miners did not go to work and others only entered the mines to remove their tools.

From present indications not one colliery will be operated until the convention comes to a definite decision. The Grand opera house, where the delegates will meet on Wednesday, has been engaged for one day only, so it is believed the men will not be long in deciding what to do. Unless the leaders convince the men that such a course is wise they will declare for a strike, as there has been considerable unrest among the miners ever since the Shamokin convention.

SENTIMENT AT SHAMOKIN.

Shamokin, Pa., May 12.—When bulletins were posted here announcing the action of the Scranton convention in ordering a cessation of work until the miners could decide for them-

selves whether to strike or not, the local members of the union with few exceptions said they would remain away from the mines. They are satisfied that President Mitchell did all in his power to obtain concessions for them. From present indications every colliery and washery here will be tied up next week. Business men are discouraged. They think a strike is inevitable and that the tie-up will be of such lengthy duration that many of them will be ruined.

PASSENGER TRAIN.

HELD UP BY ROBBERS BUT NO BOOTY IS SECURED.

Memphis, May 12.—Word has reached here from Bonnerville, Ark., that a passenger train on the St. Louis and San Francisco railroad was held up between Jonesboro and Bonnerville, Ark., at 2 a.m. After stopping the train they detached the engine and express car and pulled to a "blind siding," where they blew open the safe with dynamite. The explosion wrecked the car and the men escaped in the darkness. A posse has been organized at Bonnerville and with bloodhounds is on the trail of the robbers. The express messenger says the robbers secured no booty.

HOISTED THE AMERICAN FLAG.

SAN FRANCISCO, MAY 12.—The Pacific Mail steamship Newport brings a story concerning the steamer Cheribon, which went on Remedios reef, near Acauta on the morning of April 12.

When the steamer struck the reef Captain Pitt and the crew, fearing that she would sink, launched the boat and rowed ashore. No one was left aboard the vessel. Captain Pitt made his way to Acauta and notified the underwriters of the loss of the vessel. While he was in Acauta, an American named Moisant boarded the vessel. Finding that the cargo of coffee which the vessel carried could be saved, he laid claim to the Cheribon and hauled down the Chilean flag under which she was sailing and hoisted the stars and stripes in its place. The Chilean consul at Acauta was appealed to and Moisant was forced to haul down the American flag. He in turn appealed to the United States consul, but failed to find justification for his act. The vessel was under charter to the Pacific Steam Navigation company.

BILL OF COMPLAINT.

CHICAGO, MAY 12.—The bill of complaint is against Swift & Co., the Cudahy Packing company, the Hammond Packing company, the Armour Packing company, the C. H. Hammond company, Schwarenschild & Sulsberger, Nelson, Morris & Co. and the individuals composing these corporations and firms. It declares that they have been and are now engaged in the business of buying live stock at stockyards throughout the United States and slaughtering such live stock at plants maintained for that purpose; that they are also engaged in the business of selling fresh meats to dealers and consumers, and shipping these meats over the lines of the railroad companies serving as common carriers. The defendants, it is alleged, control about 60 per cent of the total volume of the trade having during 1901, slaughtered, sold and shipped four million cattle, five million sheep and six million hogs.

MARKED UP PRICES.

NEW YORK, MAY 12.—It is stated that a meeting of the steel plate pool, which includes the United States Steel corporation's constituent companies and the large independent concerns will be held in this city on May 15 to regulate prices for the third quarter of the year.

It has become generally understood that the eastern independent mills have marked up quotations anywhere from \$2 to \$4 per ton above pool prices. If it is believed an effort will be made on the part of the outside companies to encourage the pool to make a corresponding advance, but this proposition, it is expected will be opposed by the corporation.

THE DETECTIVE STARTS.

CINCINNATI, MAY 12.—Detective G. W. Ryan left for Washington to get additional papers for his trip to Italy to bring Miss Clara Taylor back to Cincinnati. He bears all the extradition papers from Governor Nash and Prosecutor Hoffheimer and expects to sail from New York on the St. Paul next Wednesday. Prosecutor Hoffheimer made requisition on the county commissioners for \$1,500 for Ryan's trip and to bear the expenses of the prosecution in case Miss Taylor resisted extradition and required a hearing of the kidnapping charges in Italy.

CLARA TAYLOR UNDER ARREST.

WASHINGTON, MAY 12.—United States Ambassador Von Meyer at Rome called the state department to the effect that Consul Pearson has informed him of the arrest of Clara Taylor, the woman charged with the abduction of her niece, Margaret Taylor, and of her lodgment in jail at San Remo.

CHAFFEE WITH DAVIS.

COMMANDER ARRIVES AT THE ISLAND OF MINDAO FOR A CONFERENCE.

NATIVE CHIEFS TO BE CONSULTED.

PHILIPPINE COMMISSION PASSES A LAW ABOLISHING IMPRISONMENT FOR DEBT—RAVAGES OF CHOLERA. ORIENTAL SITUATION.

MANILLA, MAY 12.—General Chaffee arrived at Malabang, island of Mindanao, where he was met by General Davis, the commander of the American forces in the islands. Generals Chaffee and Davis, with an escort, at once started to ride to Lake Lanao, in the interior.

The American forces in the province of Batangas, southern Luzon, have been concentrated at several towns in the province. This action is taken because armed insurgent resistance in the province has ceased.

The United States Philippine commission has passed a law abolishing imprisonment for debt after the debtor has sworn to bankruptcy. Until this law goes into effect the expenses of those persons who are now in jail for debt must be borne by their prosecutors and must be paid weekly.

Another case of cholera has occurred on board the United States army transport Warren. The ship and her passengers will be detained in quarantine for an additional five days. The Warren has already been quarantined for cholera for over 10 days. There have been 913 cases and 736 deaths from cholera in Manila, while the provinces report 2,710 cases and 1,907 deaths from the disease.

The records, pleadings and evidence in case of the San Jose medical college, amounting to 518 printed pages, have been put into book form and forwarded to the civil governor of the Philippines, William H. Taft, at Rome. The records are forwarded with the idea of their being available for Governor Taft's use while he is in Rome. The San Jose medical college case has been heard before the United States Philippine commission in Manila. The point contested was whether colleges were owned and controlled by the United States government or the church in the Philippines. The commission referred the case to the supreme court of the Philippines.

WANT RECEIVER FOR OXFORD.

CINCINNATI, MAY 12.—In the United States court Mrs. Lillie M. Walker of Philadelphia petitions for a receiver for Oxford college at Oxford, O., and names as defendants William M. Shera, Caleb A. Shera, George C. Welliver and ex-Congressman H. L. Morey, all of whom are directors of the institution. The Messrs. Shera are bankers at Oxford. Mr. Welliver, besides running a grocery, is also a director of a bank. Prior to 1897 Mrs. Walker owned the college property, and her husband, Dr. Faye S. Walker, was president of the college. A stock company was afterward organized of which Mrs. Walker became a stockholder, and the present suit is for both an accounting and damages. There are about 100 young ladies at the college now.

MAY MUSICAL FESTIVAL.

CINCINNATI, MAY 12.—The fifteenth May festival begins here Wednesday. Five concerts will be given, the only matinees on Saturday. The two distinguishing works are Bach's mass in B minor and Berlioz's requiem mass, to each of which an entire evening is devoted. The first concert includes a French choral novelty—an oratorio. The Beatitudes, by Cesar Franck. Beethoven is represented by his Eroica symphony. Brahms by his Serenade No. 1. Gluck by scenes from Orpheus and Wagner by scenes from Die Walkure, Siegfried and Die Gotterdammerung. Besides these greater works the concerts are illuminated by songs, arias and orchestral numbers.

NO GAME PLAYED.

CLEVELAND, MAY 12.—There was no attempt to play a game of professional baseball here by the Cleveland American league team. The baseball people decided not to oppose the sheriff's determination to stop any attempt at a game, and President Kilfoyle of the local team said that in deference to the court before whom the argument for an injunction was made, and which has not yet rendered a decision, no game would be played.

London, May 21.—The Cunard line officials say there is absolutely no foundation for the statement made at Baltimore by William Pinkney, managing director of the Neptune Line of steamers, that the Morgan shipping syndicate has bought the Cunard line.

EVENING BULLETIN.

CEREALS AS FOOD

And Their Much Greater Value as Compared
With Meat—At Same Time They
Cost Much Less.

[Manufacturers Record.]

High prices of meats are inducing a discussion of their food value, and are directing attention to the greater value as food of vegetables and cereals, especially rice. In an article in the New York Sun Dr. H. W. Wiley, Chief of the Bureau of Chemistry of the National Department of Agriculture, points out that even of the meats bought in market, only about 25 per cent. of the total weight can be regarded as of nutritive value; that as far as actual nourishment is concerned, the very cheapest and best food that may be secured is had in Indian corn, wheat, oats, rye and rice, as these bodies contain all the nourishment necessary for the body in a form well suited to digestion, and furnish all the energy required for the hardest kind of manual labor, and he adds:

Cereals contain as the most abundant constituent element of food which is practically absent in meats, viz., carbohydrates of which starch and sugar are types. Starch and sugar alone are not sufficient to give permanent nourishment to the body, since they fail to contain the elements necessary to the nourishment, especially to the muscular tissues of the body. In cereals, however, the starch is combined with an abundant supply of nitrogenous materials, of which the gluten of wheat flour is a type. It so happens that the cereals contain all the elements necessary to the nutrition of the body, having in themselves the types of food which are represented by the fats, the nitrogenous or protein bodies and the carbohydrates. In addition to these, they contain those mineral elements of which the bone structure of the body is composed, viz., lime and phosphoric acid.

The comparative value of meats, vegetables and cereals may be readily comprehended by a study of the following list giving the per centage of nutriment in the edible portions of food articles:

	Per cent. of Nutrients.
Oatmeal	92.4
Peas	87.7
Rice	87.6
Wheat flour	87.5
Bacon	87.4
Graham flour	86.9
Rye flour	86.9
Buckwheat flour	85.4
Corn meal	85
Wheat bread	67.7
Smoked ham	58.5
Beef rib	51.9
Mutton loin	50.7
Corned beef flank	50.2
Pork shoulder	49.7
Beef side	45.2
Beef sirloin	40
Mutton leg	38.2
Bologna sausage	37.6
Beef shoulder	36.1
Turkey	33.8
Beef round	31.8
Veal shoulder	31.2
Shad	29.4
Chicken	27.8
Eggs	26.2
White potatoes	21.1
Milk	13
Oysters	12.9
Onions	12.4
Cabbage	8.1
Tomatoes	4

It must be remembered that these figures refer only to the edible portions of the foods mentioned. The housekeeper, though, in buying meats has to pay for much that is refuse, as is seen in the following list:

	Per cent. of Refuse.
Shad	60.1
Chicken	38.2
Turkey	32.4
Beef sirloin	19.5
Beef side	19.2
Mutton leg	18.1
Veal shoulder	17.9
Mutton loin	15.8
Pork shoulder	14.6
Beef shoulder	12.6
Corned beef flank	12.1
Smoked ham	11.4
Beef round	7.8

When it comes to the question of the cost of these different foods, meats are even at a greater disadvantage than that shown by the per centage of nutrients in their edible portions as compared with the nutrients in cereals. Among the cereals rice is rapidly gaining in favor, not only because of its high nutritive value, but also because of its low price.

In the spring of 1892 cut worms were about as troublesome as now.

Shingles.

We have in store 500,000 red cedar, not "seconds," but "clears," vertical grain. Will last until beating of rain wears them out. W. B. MATHEWS & CO.

DRESS LINENS.

Cotton holds sway among the summer dress stuffs to be sure. But Fashion has also given linen a place. Linen and silk are both honored by use with cotton in the weaving of dainty, cool stuffs for fair wearers. Not so much for superiority as for the effect they give are silk and linen used, so you may expect all sorts of mixtures—elegance and style are the goal.

TABRIQUE DE TUXE! As an exquisite silk and linen combination, admirably adapted for summer, few materials have elicited such admiration. A singular beauty of lace-like effect is given the cloth by novel stripes. The color combinations are exquisite in both pastel and stronger shades. A yard 50c.

SILK CEVENNES! This is a silk gingham of fine quality. The styles are beautiful, the colors perfect. Nothing daintier could be selected for children's best frocks or women's dressy waists. A yard 50c.

LINEN COVERTS! A beautiful fabric sure to be appreciated by the high class trade, who are always looking for something finer and better each season. Similar cloth can only be found in foreign fabrics of much higher cost. Especially adapted for shirt waist suits and separate skirts and waists. 25c. a yard.

BROCHE SOIE! A queenly material for evening wear and dressy occasions. A choice collection of solid colors and delicate shaded effects. One of the leading novelties of the year. 50c. a yard.

LINENS IN LINEN COLOR! Mostly plain, a few checks and stripes. Sturdy material that will stand daily tubbing. Excellent for men's and boys' suits. Nothing more stylish for shirt waist dresses, separate skirts or Gibson waists. A strong line in quality and variety. 15c.. 25c. a yard.

D. HUNT & SON

PAPER HANGING MACHINE.

New Apparatus That Cuts the Paper, Applies the Paste and Then Places the Paper in Position.

The latest thing in the way of automatic machinery is the paper hanger. It is claimed for this machine that it will perform the work in a much more rapid and easy manner than the old method of spreading the paper on a table, cutting it into strips of the proper length, applying the paste and finally placing it in position on the wall.

According to the inventor, about all the operator of this apparatus has to do is to turn the crank and place the machine in a new position after each piece of the paper is attached to the wall. The paper is placed in the machine in a single roll, and is automatically cut to the proper length, paste applied and the paper put on the wall while the operator is doing nothing but revolving the wheels by means of the crank.

The invention consists of a carriage arranged to travel on a vertical track and carrying a roll of paper, a paste holder, a rotary paste brush, pressure brushes and a knife for serving the paper at the proper moment. The roll of paper in un winding is made to come in conjunction with the paste carrying brush, passing thence to the wall. The turning of the crank causes the supporting carriage to rise in its toothed guides, carrying the pressure brushes across the paper as fast as it is put in position. When the top of the room is reached the stoppage of the carriage is utilized to throw the long knife blade into a slot and sever the paper. The carriage is then pulled down by means of the chains and the supporting frame moved along to the next position on the floor. More time is occupied in placing the machine in position than in applying each section of the paper, but even this is a short operation, owing to the guides which are supplied for the purpose.

Masonic Notice.
Stated meeting Maysville Lodge No. 52, F. and A. M., at 7:30 to-night. There will be work and all members are requested to be present. Visiting brethren welcome. A. T. THOMPSON, Master. E. H. Binzel, Secretary.

FARMERS INSURANCE CO.

Total Cost to the Insured Last Year Was Less Than 40 Cents on the \$100. Old Officers Reelected.

At the annual meeting of the Farmers Mutual Insurance Company of Mason County, held a few days ago, the old officers were reelected for ensuing year as follows:

President—Joseph Cochran.

Vice President—John J. Thompson.

Secretary—James B. Key.

The Secretary's financial statement showed the following:

Insurance in force May 5, 1902.....	\$1,038,125
Increase for the year.....	62,000
Number of members.....	778
Cash in bank May 6, 1901.....	166 20
Received.....	
C. F. Lloyd for McAtee barn.....	169 26
For old brick.....	11 00
For old material.....	3 50
P. H. Martin.....	69 30
Paid Out.....	
Paid out for fire loss.....	2,316 99
Paid out for wind losses.....	999 98
First National Bank for collections.....	30 00
W. D. Cochran, attorney fee.....	30 00
Officers salary.....	391 05
Printing cards and stationery and Insurance Commissioner's fee.....	122 00
Total paid out.....	\$ 3,889 93
Cash in bank May 5, 1902.....	740 89
Amount due from delinquents.....	269 89
Total amount due &c.....	1,019 78

There were four assessments during the year, the total amounting to only 40 cents on the \$100, but of the amount from these assessments there is \$740.89 cash in bank and \$269.89 due from members, showing the actual cost for the year to the insured was less than 40 cents on \$100. The four assessments amounted to about \$3,800.

The trial of the first of the cases against certain officers and employees of the Maysville Telephone Company for obstructing the turnpikes closed Saturday afternoon in 'Squire Dresel's Court, the jury acquitting Hon. Walter Matthews. Mr. Matthews was charged with obstructing the Lexington pike. The company claimed a right over this pike secured before the road was sold to the county. The other cases will come up Wednesday morning.

Major Sanders, a prominent lawyer of Louisville, says Governor Beckham is unquestionably eligible to re-election.

Don't You Believe It...

That because we make a specialty of selling the very finest ready-to-wear Clothing that is produced by the best manufacturers in the world, that we overlook the needs of those of modest means or economical views on the subject of dress.

Our Young Men's and Men's Suits that range from \$6 to \$12, you will find the best values you ever looked at. The same attention in make, fit and trimming is accorded to these priced Suits as to the high class, BUT you know that not a garment leaves our house that is not guaranteed to give satisfaction.

The weather suggests Flannel, Serge and Crash Suits. Let us show you what we have in hot weather Clothing. Soft Shirts are now in order. No line like ours west of the Allegheny Mountains. But why enumerate?

Ours is the store which dresses you from the foot up to the head, in a manner satisfactory to US and when WE are satisfied YOU will be too. There is a rule in our house that is NEVER violated and that is, no garment goes out of the store that is of doubtful fit. That this rule is appreciated is evidenced by the fact that since the weather turned seasonable we were hard put to wait on the crowds that flock to our two stores.

Selling Shoes with the KEPT promise to make good any deficiency in the wear, we find a great magnet in our Shoe business. Here you run no risk to buy Shoes if you want good ones.

D. HECHINGER & CO.,

THE HOME STORE.

River News.

The New South brought up a large crowd of excursionists from Cincinnati Sunday.

Virginia and Courier due down this evening and Stanley up to-night for Pomeroy.

The elegant steamer Indiana will shortly take the Courier's place in the Pomeroy trade.

The oddest shipment ever brought up from the South on a barge is now en route to Pittsburg on the model barge Casper Trumpe, of the Pittsburg Coal Combine's fleet. The cargo is billed as scrap metal, and belongs to a Pittsburg junk man. It was loaded with 1,200 tons of old war materials at forts Jackson and St. Phillip, at the mouth of the Mississippi river, and consists of old-style cannon, some of which were used in Jackson's war of 1812, some in the war with Mexico, some in the many Indian wars this country has had, and a large part is left over from the contest of the "sixties."

There are broken brass cannon, Parrot guns, Mississippi rifle belongings, Enfield rifle parts, bayonets, war knives, buckles with both "U. S." and "C. S. A." on them, and cannon balls of every variety and size. The barge entrances are locked and sealed in order to keep off the relic hunter.

The house of William Bradley, one of Robertson County's well-to-do farmers, was burned Friday. Loss estimated at \$1,800, with no insurance.

June Fashion Sheets Are In.

June Delineators Are In.

....We Want You.....

Or to be exact, you need us, unless you don't mind wasting money. Our motto is "not something for nothing," but "up-to-date and stylish goods at FAIR PRICES."

LADIES' HOSE!

We are showing now for summer use, a new style drop stitch Hose. Don't forget to ask to see them when you are in. They combine quality with newness and they are only 25c. per pair.

LADIES' VESTS!

More people are fooled in this class of underwear than any other garments. More little things can be left out that reduce the cost, also the wear, than most ladies imagine. We buy our underwear direct from the manufacturer in large quantities. It saves you the jobber's profit. It gives you the best of goods at low prices. From 5c. up are our prices, but the most popular sellers are the 10c., two for 25c. and 25c. Buy here and you buy right.

LADIES' GLOVES!

The fine Silk Glove, in either black or white, is now the proper thing. Many styles but mainly one price, 50c. Other kinds of gloves, of course, but the glove that's "IT" is what we tell you of first.

LADIES, LADIES!

We want your trade. If you haven't bought from us, try us once; we know you will come again. Remember, for good goods, for honest prices, for courteous treatment, trade at

MERZ BROS.

SPECIAL PRICES ON CARPETS, MATTINGS and RUGS.

PAINFULLY INJURED.

Mrs. William N. Stockton Meets With an Accident While Horseback Riding Saturday Afternoon.

Mrs. William N. Stockton narrowly escaped fatal injuries while out horseback riding Saturday afternoon. Mrs. Stockton is one of the most expert horsewomen in the county, and has been taking rides almost daily. She was accompanied Saturday by Mr. W. Henry Wadsworth, the latter having horse from Daulton Bros.' stable, and Mrs. Stockton riding her own.

Having received an offer for hers recently she decided to try the horse Mr. Wadsworth was riding, and near the Zweigart residence on Jersey Ridge pike, the exchange was made. Shortly afterwards while going down a small hill Mrs. Stockton's fresh horse began plunging and reared up, falling back upon her.

It was feared at first she was very seriously injured, but while she spent a restless night last night she is getting along as well as could be expected. She is at the home of her parents, Mr. and Mrs. Jas. N. Kirk, where she was removed shortly after the accident. The extent of her injuries will not be known for a few days yet.

Ladies solid 14k. watch, studded with a solitaire diamond, \$23. Gents' solid gold watch \$25. Iron parlor clocks \$5. Set of solid silver spoons \$3.50. We're closing out this stock.

CLOONEY & PERRINE.

Successors to J. Ballenger.

Mrs. William Lohstroh, ex-President of the State Rebekah Assembly, was injured in a runaway accident at Newport.

Henry W. Ray has started his soda water fountain for the season.

W. H. Harrison was reappointed postmaster at Flemingsburg Saturday.

Born, to Mr. and Mrs. W. Gibbons Knoedler, of Augusta, a fine daughter.

Miss Jennie Rudy, who has been seriously ill the past few weeks, is somewhat improved.

The commencement exercises of Kentucky Wesleyan College, Winchester, begins Wednesday morning, May 28th.

Mr. Thomas Allison had an entire field of corn destroyed by cut worms, just as though it had been swept with a broom.

Dan Peed, of Paris, bought of Dave Johnson and Aylett Buckner their crop of 35,000 pounds of tobacco, Thursday, at \$8.25.

There was one addition to the Christian Church Sunday by letter,—Dr. Lula C. Markham. Nine in all were received into full fellowship.

Dr. Walter Matthews, of Mayslick, a brother of Dr. Edwin Matthews, graduated Thursday from the Ohio College of Dental Surgery at Cincinnati.

Strother Goff, of Clark County, and Robt. Thompson, of near Paris, have purchased 4,200 acres adjoining Amarillo, Texas, at \$3 per acre. G. C. Thompson, of near Paris, also bought 1,292 acres at \$3, near Washburn, Texas.

For the month of May we are making special low prices on diamonds. Now is the time to buy. If you are thinking of getting a nice diamond ring, stud, ear drops or brooch we have them in all styles of mountings and will make very low prices.

MURPHY, the jeweler.

DIED SATURDAY NIGHT.

Sister of Mrs. Susan Killpatrick of This City Passed Away at Home Near Shannon.

Mrs. Lizzie P. Smith died suddenly Saturday night at 9 o'clock at her home near Shannon.

Mrs. Smith was a daughter of the late Joseph Ray, and was born in 1850. Twenty years ago she was married to Mr. William Smith, who with two sons survives her. She also leaves four sisters, Mrs. Phoebe Pollock, of Germantown, Mrs. Martha Ward, of Mayslick, Mrs. Susan Killpatrick, of this city, and Mrs. Joe Emma Ward, of Fairview, and two brothers, W. D. Ray, of Helena, and Yancey Ray, of Fleming County.

Mrs. Smith had been a member of Shannon M. E. Church about twenty years and was an estimable Christian woman. The funeral takes place this afternoon at 2 o'clock at Shannon Church. Burial in Shannon Cemetery.

PERSONAL.

—Mrs. Charles D. Pearce has returned from Louisville.

—Mrs. Tobe Johnson was a visitor in the city Saturday.

—Mr. Langhorn Anderson, of Cincinnati, was here Sunday.

—Miss Ann Barry was visiting friends at Washington Sunday.

—Miss Annie Thompson returned today from a visit at Newport.

—Miss Louise Condit, of Ashland, is the guest of Miss Tillie Ranson.

—Mr. and Mrs. Will Chisholm have returned from a visit in Cincinnati.

—Mr. S. B. Chunn, of Huntington, W. Va., spent Sunday here with his family.

—Rev. Dr. Boyet is at Asheville, N. C., attending the Southern Baptist convention.

—Mr. Henry J. Shea and wife were in Covington Sunday to see his mother who is very ill.

—Chief of Police Donovan has returned from the national convention of chiefs at Louisville.

—Mrs. Richard W. Wood returned Saturday from a visit at Covington and in Grant County.

—Miss Julia Lundrigan returned to her home in Augusta Sunday after a visit here to relatives.

—Mrs. Lulie Hampton, of Bloomfield, is visiting her mother, Mrs. Breckinridge, of the East End.

—The Misses Norris and Misses Tyler, of Germantown, were guests of the Misses Allison, of "Sunnybank," Sunday.

—Mrs. Charles Frances, of Flora, Ind., is the guest of her parents, Mr. and Mrs. John Bradford of East Third street.

Cor. Second and Sutton Streets, Maysville, Ky.

DR. LANDMAN.

Central Hotel,
Thursday, June 5.

MISS JESSIE ORIDGE YANCEY.

This Talented Daughter of Maysville Handsomely Complimented by a New York Writer.

In Sunday's Courier-Journal, Ada Patterson, writing from New York of talented Kentuckians who have made their appearance in the Empire City, has the following:

"Miss Jessie Oridge Yancey, a Maysville, Ky., girl, is becoming a popular club entertainer in the metropolis. She read for the "National Society of United States Daughters of 1812" at Delmonico's, April 19, when she pleased her audience by her rendition of Longfellow's "Sandalphon" with a musical accompaniment by the Misses Rogers, with piano and violin. Miss Yancey's personality lends itself best to the sentimental and the delicately humorous, and her imitation of the Kentucky negro dialect is highly successful. She proves her versatility, however, by a variety of selections."

Walter N. Haldeman, President of the Louisville Courier-Journal Company, was struck by a trolley car Saturday, receiving a severe scalp wound and his shoulder was sprained. Mr. Haldeman is over eighty years old.

An eastbound electric car jumped the track Saturday afternoon as it started across Limestone bridge, colliding with the heavy iron uprights of the bridge with such force as to break one and bend another out of position. The car would have probably landed in the creek bed had it not been for these uprights. Mortorman Otto and some of the passengers narrowly escaped serious injury.

ONE OF THE

Tenderest Things

In the world is a little child's foot. You know how your own foot hurts when your shoe doesn't fit? Well, a tiny tot's aches are harder to bear. We take special pains in fitting little people's feet, and have a lot of dainty shoes for their summer wearing.

FRANK OWENS HARDWARE COMPANY

CINCINNATI TOBACCO MARKET.

Offerings Unusually Light and Nothing Doing of Special Interest—Little Change in Prices—Week's Review.

	Week.	1901.	1902.
New (hds.)	1902	284	1,496
Old	472	84	
Total offerings	756	1,582	
Total rejections	133	282	
Total actual sales	623	1,306	
Total receipts	339	1,061	

The 284 hds. new tobacco averaged \$5.88 per 100 lbs., as against \$6.27 for the 405 hds. last week and \$6.28 for the 1,496 hds. in the corresponding week last year.

The 472 hds. old tobacco averaged \$8.85 per 100 lbs., as against \$7.64 for the 272 hds. last week and \$6.95 for the 84 hds. in the corresponding week last year.

The market during the past week was an almost featureless one, and, as the offerings were unusually light even for this season of the year, there was little in the transactions to arouse animation or the interest of buyers. Little, if any, variation in prices was noticed from those current in the past few weeks, some little improvement, however, being evident in new trashers and reviews of old tobaccos.

In new tobaccos much of the offerings were of the low grades and inferior sorts, giving evidence of moisture and the needs of rehandling. Such packages of the new as were in good condition brought satisfactory prices, but the damp ones were lower under the rigid inspection and discrimination exercised by the buyers. In red tobacco the common and medium lugs from \$4.50 to \$5.75 that were free from moisture and good, bright leaf from \$8 to \$11, were probably the best sellers and commanded the most attention from manufacturers.

Good color in the new was extremely scarce and all offerings were quickly taken under spirited bidding.

The market will continue dull and uninteresting.

ing for new tobaccos until the redried begins to make its appearance in larger quantities, which will not be until about the end of the month.

In old tobaccos the good smokers under \$6 and medium leaf from \$9.75 to \$11 were the strong features and best sellers.

Good cutting leaf from \$6 to \$7.50 and the color sorts from \$8 to \$11 were also in fair demand and attracted considerable attention.

Fine to fancy brights and selections were very scarce and may be regarded as about off the market, a few packages of the former selling at \$15 to \$17.25, the top price of the week being obtained for two hds., which sold at \$21.25 and \$23.75 per 100 pounds respectively.

Rejections during the week were light and below the normal, indicating that prices obtained were generally satisfactory to the sellers.

SUNDAY SCHOOL CONVENTION.

Officers Chosen at the District Meeting at Orangeburg—Largely Attended.

The district Sunday school convention at Orangeburg Sunday afternoon was attended by a very large crowd, the Christian Church not accommodating near all who were present. Prof. Fogg had charge of the music. County President Duley, Rev. F. W. Harrop, Rev. R. E. Moss and Mr. John T. Parker were present from this city. Several short addresses were delivered. Officers were elected as follows:

President—L. M. Collis.
Vice President—W. W. Stubblefield.
Secretary—Miss Della Goodwin.
Treasurer—Mrs. John W. Holladay.

Rev. Dr. C. G. Jones, a prominent Baptist minister of Covington, died Saturday.

Judge Cochran convenes the U. S. court at London, Ky., to-day.

ITEMS OF INTEREST

Contributed by the Bulletin's Corps of Country Correspondents—Paragraphs Personal and Otherwise.

PLUMVILLE, May 10th.—Elijah Rogers returned to his home a few days ago after a two months stay in Illinois.

Robert Outten and James Crawford left a few days ago for Farmers City, Ill., to engage in farm work.

A. L. Redman has been suffering with a severe cold at his home the past week.

Sunday school was organized here last Sunday with Eli Frame, Superintendent, Miss Annie Yancey, Assistant Superintendent and Miss Lillie Morris, Treasurer and Secretary. A large attendance is expected each Sunday.

There are some women who seem to be perennially youthful. The grown daughters are companions as well as children, and the color in the mother's cheeks, and brightness in her eyes, the roundness of her form, all speak of abounding health. What is her secret? She is at the middle age of life when so many women are worn, wasted and faded, and yet time has only ripened her charms. The secret of this matronly health and beauty may be told in the brief phrase, Dr. Pierce's Favorite Prescription. The general health of woman is so intimately related to the local health of the delicate womanly organs, that when they are diseased, the whole body must suffer. "Favorite Prescription" dries the debilitating drains, heals ulceration and inflammation, cures female weakness and imparts to the delicate female organs natural vigor and vitality. Women who have lost their health and their beauty have been made "robust and rosy cheeked" by the use of this marvelous medicine.

Judge Cochran convenes the U. S. court at London, Ky., to-day.
